

Where ideas work

**Ministry of Water, Land and Resource Stewardship
Multiple locations, BC (Hybrid)**

Flexible work options are available; this position may be able to work up to two (2) days at home per week as per the telework agreement.

**Terrestrial Invasive Fauna Biologist
\$73,855.42 - \$84,134.34 annually**

The Terrestrial Invasive Fauna Unit is focused on mitigating the threat associated with terrestrial invasive fauna through science-informed policy, preventative actions and development of best management practices.

The Terrestrial Invasive Fauna Biologist is responsible for providing science advice on issues associated with terrestrial invasive fauna prevention and management to decision makers, regional biologists, qualified professionals and the public. This role will support prioritizing provincial approaches to high-risk terrestrial invasive fauna, developing and improving prevention strategies, advancing surveillance, coordinating rapid response to new incursions and delivering community outreach for new and emerging priorities.

For information about the Indigenous Applicant Advisory Service, please visit: [Indigenous Applicant Advisory Service - Province of British Columbia \(gov.bc.ca\)](https://www2.gov.bc.ca/gov/content/employment/humanresources/indigenous_applicant_advisory_service).

Qualifications for this role include:

- Master's degree in a related science field (e.g. biological sciences, ecology, natural resources management or related discipline) AND three (3) years of related experience; OR
- Bachelor's degree in a related science field (e.g., biological sciences, ecology, natural resources management or related discipline) AND five (5) years of related experience.
- Registered (or eligible) as a Registered Professional Biologist (RP Bio) in B.C. with the College of Applied Biology within six (6) months of employment.

Preference may be given to applicants with one (1) or more of the following:

- Scientific knowledge and/or experience working with invasive species. Note: experience in only one taxonomic group should not preclude one from applying for this position.
- Experience working with First Nations and Indigenous peoples.
- Experience engaging, communicating, and partnering with stakeholders, universities and NGO groups.
