Course Name: Discrete Mathematics.

Course Number: Math-1401 **Course Section:**

Instructor's Name: Dr. Mal

This class is: ○ Required ● Elective

Instruction to the Student: Your assessment of the above-named instructor's teaching as *satisfactory* or *unsatisfactory* will become part of his/her personnel file and will be used in annual evaluation, and tenure and promotion decision-making. As such, we ask that you reflect carefully about the quality of instruction provided. Teaching quality includes criteria such as the instructor being organized, providing clear explanations, showing concern for students' understanding, demonstrating interest and enthusiasm, being available to and respectful of students, and using fair evaluation methods. ***Please DO NOT write your name on this sheet.***

1. Please describe the strengths and weaknesses of the above-named instructor.

Does a good job of summarizing mathematical concepts into colloquial English, obviously tries to ensure all students understand the material. Attempts to engage students through music → more classical would be great!

Ignore the point of in class assignments, but they do waste a lot of paper.

2. Overall, apart from the course content, the quality of teaching provided by the above-named instructor was:

○ Unsatisfactory ● Satisfactory

Submissions are anonymous and will be released to the instructor only AFTER the Senate approved final grades are announced.

SCANTRON Mark Reflex® EM-286876-2:65432 GDIT Canada Limited. To re-order, call 1-800-665-8774.

1. Please describe the strengths and weaknesses of the above-named instructor.

Teaches well, explains everything well
On request, will explain it again clearly
Easy to understand
Very flexible with office hours for help
I believe the course should've been curved due to low overall average.

2. Overall, apart from the course content, the quality of teaching provided by the above-named instructor was:

○ Unsatisfactory ● Satisfactory

Submissions are anonymous and will be released to the instructor only AFTER the Senate approved final grades are announced.

Course Name: MATH Discrete

Course Number: 1901 **Course Section:** 003

Instructor's Name: Lucas Mol

This class is: ○ Required ● Elective

Instruction to the Student: Your assessment of the above-named instructor's teaching as *satisfactory* or *unsatisfactory* will become part of his/her personnel file and will be used in annual evaluation, and tenure and promotion decision-making. As such, we ask that you reflect carefully about the quality of instruction provided. Teaching quality includes criteria such as the instructor being organized, providing clear explanations, showing concern for students' understanding, demonstrating interest and enthusiasm, being available to and respectful of students, and using fair evaluation methods. ***Please DO NOT write your name on this sheet.***

1. Please describe the strengths and weaknesses of the above-named instructor.

Dr. Mol is good at keeping the class engaged with random jokes and he often asks the class if we understand multiple times to ensure we get it.
for a few chapters, he used the blackboard instead of handouts, and I didn't like that. I spent too much time writing down examples and not enough time processing the material. I wish he would have just used handouts the whole time.

2. Overall, apart from the course content, the quality of teaching provided by the above-named instructor was:

○ Unsatisfactory ● Satisfactory

Submissions are anonymous and will be released to the instructor only AFTER the Senate approved final grades are announced.

1. Please describe the strengths and weaknesses of the above-named instructor.

Dr Mol is organized and provides clear examples. He demonstrates enthusiasm for the topics he teaches. Dr Mol is available to students, and approachable. He marks fairly and has clear expectations. He shows concern for students' understanding, going out of his way to help them. Dr Mol plays music before class, which is a fun way to ease into class. He knows students' names showing he cares.

1. Please describe the strengths and weaknesses of the above-named instructor.

Prof. Mol is really excellent. I was worried coming into this class because of how complex it sounded but Prof. Mol was able to break the material down nicely and has a very good way of explaining concepts and working through examples. He takes the time in class to go over any concepts in class or assignment questions that the class might be struggling with and is always open to questions. The time he makes for students during office hours is fantastic, including making extra time for students and informing the class of any changes. He highlights which practice problems in the textbook will be most useful which is very helpful for studying. He is a very fair marker and I like that he takes the time to comment on answers to explain the correct way to do it. The songs at the beginning of class was a nice touch! Thank you!

1. Please describe the strengths and weaknesses of the above-named instructor.

I really enjoyed the examples given as well as the musical pairings for each section of the chapter (since that is how I naturally study).
Almost immediate email response time !! and flexibility with meeting around office hours are key.
Thanks again.
