S38. What changes would you make in your own approach in order to improve your learning?

Responses

N/A

To practise more questions

Review and practice more on the contents of the course

N/A

N/A

I wouldn't change anything since I'm happy with my results.

Review notes and practice questions solved in class on a daily basis and also practice the labs and suggested practice questions.

N/A

I would have tried to practice more questions from the suggested question that Prof. Lucas mentioned on Moodle.

Practice as many assignments and quizzes as you can. Communicate with your teacher if you don't understand any questions.

Study more

I think I need to be more hard-working and be more talkative in class.

N/A

N/A

N/A

I think I would review the content after each class so that I don't have to study everything right before the quiz

N/A

N/A

Being more active in class and reading extra hard

I would practice more since it is Mathematics. I feel that the course material was very well laid out and we had access to a good amount of information.

N/A

I did every practice problem which was given by instructor.

Nothing! Your classes were the best in my opinion for me in this semester

S39. What suggestions would you provide to your instructor for revisions that would produce a better learning experience for you?

Responses

N/A

none since the instructor was prepare many materials for revision

The instructor provided an excellent learning experience

He is learning clearly, so it helps to understand easily. Thanks Lucas. :)

N/A

The instructor was fantastic. Very passionate about teaching and math.

If time permits, let there be general revision of the course material before final exams.

N/A

Nothing specific. But if Iâm nitpicking, After midterms and quizzes, professor can walkthrough the questions ones in class for like 10 minutes to get a better idea on how to answer in the paper.

In fact, I think my teacher did it perfectly. The lecture was very clear and easy to understand. And answer students' questions in class carefully. I hope mid-term two is not too close to the final

NA

Nothing, the learning experience is already great.

N/A

Maybe some variants of labs for practice material before next test

N/A

I found the current system useful

N/A

N/A

N/A

None, he was phenomenal! Or in other words, to ensure it remains the same going forward.

N/A

N/A

Learning experience is already great

S40. What aspects of the course would you advise your instructor to retain?

Responses

N/A

N/A

Printed notes and going through them in class in order

He is solving every chapter in class and update the moodle after each session quickly. Really it is helpful to keeping student update every time.

N/A

Every aspect. Lucas is an excellent instructor.

How the course applies to the real world situation

N/A

Weekly quizzes are great as it helps to keep up with the portions and especially helps people like me who keeps things till the last minute to study and keep updated with the portions.

All

The note packages for each chapter which enabled me to follow along with lectures.

Nothing.

Word problems

N/A

The worksheets and lab questions were really helpful when it came to practising and understanding the concepts

The weekly labs and quizzes were helpful

N/A

N/A

His interaction with the students

None

N/A

You give very clear instructions how to solve problems.

The Notes and explanations of how a sum is done

S41. Do you have any other comments about your learning experience in this class?

Responses

N/A

This was a fun class and I understood the course very well

Had a great experience learning from Lucas.

I'm glad that i now know the importance of learning calculus and it application to the real world situation. I never knew i could understand calculus the i did in this class. KUDOS!!! to my instructor.

N/A

Classes were great and interesting. Never gets bored and the fact that he takes the time to print the handout for student instead of telling students to get it themselves shows dedication. He also dumbs down the way of explanation so that everyone in class can understand.

Come to each of his classes and practice carefully

It was a good experience

No, I don't.

N/A

N/A

I have enjoyed this course, the professor did his absolute best and was perfect with how he taught the material and made it easy to understand

Not really. I got what I expected (in a good way)

N/A

N/A

It was a good learning experience

It was wonderful. I really enjoyed going to class. I've not had this feeling in a long time. The professor was really amazing.

N/A

Lucas has great communication skills. He clearly give ideas how to do problems in a easy way. He also prove why we do this problem with this function.

I actually started liking maths Compared to my previous maths class
