Part C. Comments

Administered to all Faculty of Science courses except Biology Labs; these courses used customized questionnaires.

S38. What changes would you make in your own approach in order to improve your learning?

Responses

N/A

study and review more often

More practice

Putting extra time into reviewing class notes

Perseverance and hard work always make a man achieve closer to his goals and that's I will strive in Maths regularly.

N/A

Practice as much as I can

I honestly feel that I am already very committed to my studies, but maybe improving my pace when studying and not getting distracted so easily.

more practice can be helpful

I would like to practice more of the questions from the text. Probably get an understanding of the content expected to be graded.

I honestly found the course structure and delivery method easy to follow.

Practice more often

I like the way of learning

to practice more

Explore the material more before the lesson so I have an idea of what the content will be.

The study should be more student-centric that is they should be the ones asking questions and doubts.

nothing , every thing is good .

I would do the practice questions more often than I did this course.

Nothing

N/A

If he had any recorded videos for more source topics

Come prepared at least with what was taught in previous class

I would focus more on the silly mistakes that i make and try to improve them

N/A

He can the take difficult stuff a bit slower. But the speed does match the amount of content so I'm not too sure.

S39. What suggestions would you provide to your instructor for revisions that would produce a better learning experience for you?

N/A

The instructor has done a fabulous job in delivering the learning materials and his teaching skills are phenomenal

N/A

Decreasing class days and make it in 1-2 stretch.

The instructor did an excellent job in this course, so I don't have any suggestions for him because I don't see any areas where he could improve. He is already doing everything very well, and this course has been an outstanding learning experience for me.

Honestly, the instructor was awesome, Always I recommended him to other people.

Maybe could encourage some assignments during the course. So that we can work on more practice problems.

We were provided with practice questions and answers so those helped a lot.

NA

N/A

Nothing he is a perfect teacher

Try to spend more time on the more difficult topics and less time on the easier topics.

It's not about finishing the syllabus but providing a basic understanding of the concepts

maybe more complicated question with bonus as assignments.

N/A

None he did good job delivering materials

N/A

None he was amazing

N/A

No suggestions...the instructor is perfect

Lucas is amazing, KEEP HIM AT ALL COSTS!!!!!!

N/A

All of it.

Regular class tests.

The instructor had many good aspects that he should retain, the printed notes were very helpful, and he is very friendly and always open to helping students.

no, advise, he knows the way, he is perfect to teach, very comfortable with course material.

The notes were really good, helped in a logical progression of the course material. It helped comprehend and clarify what material was for what type of problem.

All

N/A

Nothing at all

The way he teaches the lesson is very effective and he is always very positive.

The nerd jokes

everything are covered.

Learning was amazing.

Lucas is the best instructor at TRU, and I think University should bring many like him.

It was very good experience learning math and getting concepts clear.

The instructor's enthusiasm really helped me to learn in this course and I could definitely recommend him to other friends as well. He explained every topic very clearly and every time I had questions, he was always glad to help. He is an amazing instructor.

N/A

Had a really great experience learning. Prof. Made the class fun and engaging with the illustrations and also explained the probable real life applications.

I learned well

It was a good learning experience.

Be more helpful to students specially international ask them about there life and stuff like that

I recommend Lucas for all my friends .

This course have greatly advanced my knowledge on mathematics compared to past courses. So that indicates this course was really helpful.

Thank you very much teaching us. I learned a lot from the class

N/A

Greatest math teacher I've probably ever had, and the main reason I might get an A in the finals this semester.
