S38. What changes would you make in your own approach in order to improve your learning?

Responses

---

N/A

---

Practice more and more questions

---

I must say the course was quite challenging for me but i found it very helpful all thanks to the professor. you have to study and make sure to do all the suggested practice questions it helps. Lucas is always there to help and assist you

---

I will never take classes at 8:30 :). Sorry, but It's first time I deal with work and morning classes and I figured out that it's not about me

---

Making more practice problems is really helpful

---

I would not make any changes as the instructor explained the material well in class.

---

Practice more with other people to get feedback and learn from them.

---

I think I would do more question so my own

---

No changes he's an amazing instructor! Maybe tests could be less difficult otherwise I would definitely take him again for any other math courses. He made me try my best of everything and work hard which I never did in any other math course!

---

I should be more regular to class to improve my understanding. But the instructor does a a wonderful job of explaining

---

'- I would continue to go to more office hours.

---

The only bad thing about this class is that it has 4 classes per week. If some classes can be combined to longer classes would have been great

---

Probably ask more during the sessions

S39. What suggestions would you provide to your instructor for revisions that would produce a better learning experience for you?

Responses

N/A

No suggestions everything went smoothly.

Well the test we did every week was helpful so i have no problem with that. it kept me going with the course

N/A

I think what he does is excellent

No suggestions. I understood the material well.

I think he did a wonderful job. I learned a lot in this course and he made it easy to understand.

I think to give more examples in class and ask for feedback from the class and not just go asking the way

N/A

Maybe in the middle we can add more explanation videos regarding concepts which will make it easier for reviewing

'- I think everything was perfectly done.

N/A

Try to encourage a little more people to participate and get involved in the class

N/A

None I think it was a ver well put together course

N/A

Lucas did a pretty great job of teaching this course, only thing I would ask for is practice problems with answers with instructions on how to get the final answer

S40. What aspects of the course would you advise your instructor to retain?

Responses

N/A

NA

Lucas is a really nice and gentle lecturer who makes sure his students understand whatever he is teaching in class. i took him for Calculus and Math 1070.

N/A

Practice problems and reviews in class are good

The notes, weekly quizzes and examples given in the notes.

Everything was great.

N/A

N/A

The course is very good

'- Everything. Especially the quizzes and midterms every Monday because they pushed us hard to continue reviewing the content and by the time the semester ends, it makes it easier to just revise rather than start studying from scratch!

Everything your awesome. Madeva difficult subject so easy

All of the,

Best professor for Maths. Difficult problems were thought of in an easy way.

---

My learning experience in the course was awarded and engaging because i had people who were willing to help me.

---

N/A

---

It was a pretty good experience. He is a good professor

---

I learned the topics well in the course and the instructor taught the topics very well making it easier to understand.

---

Thank you for all your help.

---

I loved having him as a teacher, he sincerely cares about his students. The weekly quizzes helped a lot!

---

None

---

'- This was perhaps the class I least expected to pass but the professor made it not only easier but quite enjoyable. I had a lot of fun spending my nights practicing all the suggested problems.

---

---

Honestly it's one of the best math professors I ever had, even though I am not good at calculus his way of teaching is the best

---

N/A

---

The best math professor I have ever had. Really cares about his students and their learning outcomes.

---

You somehow made clac my favourite class

---

Great teacher, easy to understand and knew what he was teaching
