I would work on more problems.

No changes. Best math professor

Make more sesions in problem solving showing step by step process.

I would do more preparation. As the semester progressed I studied more for midterms, but I didn't review as much after class or use the practise questions. If I had done that, I could've achieved a higher grade.

I would love to see Ernie in class :)

Going through a few of the difficult proofs.

Really good professor. He is passionate about the students understanding the content

When the solutions are posted on Moodle, it Will be helpful to describe in details some assumtions or considerations to solve problems that have more to do with concepts.

The only thing I felt a bit unclear on was the webwork assignments. I'm pretty sure I missed one or two of them because the dates passed and I didn't notice. We spoke about them near the start of the semester but they didn't come up again. The syntax for inputting answers was a bit uncomfortable for some of them.

Nothing every thing was perfect 👍

Less webwork.

if it isnt too hard to do, post past quizzes that are relevant to what we're learning for more practice

Changing the WebWork due dates or notifying the class when they are there

In my opinion it was good class, I loved those glory questions in the exams

The class is always entertaining, never take ernie out of your examples Lucas.

Please retain how detailed the course work is. Lucas provides plenty of course work for a student to study

The asigments where a good idea try to keep studying. Also the quizzies per section where a good idea. I Will just recommend to allow more time to hang the excersise for feedback.

Lucas is one of the best teachers I've ever had and I feel lucky to have been in his class.

Amazing, the best math teacher i ever had!

I don't like math but Lucas helped me understand and gave me constructive notes in my quizes and assignments

N/A

It was amazing. Coming back as a mature student I hadn't written algebra in over a decade. I'm very satisfied with how I did in the class and Lucas was a huge part of that.

Thank you so much Lucas for teaching us so well, I would love to take your course in future as well😊 I love Ernie too.
